## **TERMS OF THE COMPETITION**

### **1. PARTICIPANTS**

All male and female amateur players, with a valid license issued by their corresponding National Federation with an activated handicap, will be able to take part, with the limitations that will be expressed later. All registrations will be subject to the approval and acceptance of the club and the Catalan Golf Federation, which reserve the right to accept or reject them.

The player's handicap must not be higher than 18.4 at the time of registration.

In the case of international players without a Spanish license, the exact official handicap that is valid will be the one certified by the corresponding National Federation.

The number of participants may not exceed 60 male players and 30 female players, when those will be registered, correctly on time and form, with the lowest exact handicap, including the 3 male guests and the 2 female guests who are reserved for Test Committee, which will mainly be intended for players from the Organizing Entity.

In the event of a tie for 60th place in the case of the men and 30th in the case of the ladies, the player who entered the competition earlier will participate. For both gentlemen and ladies, if the maximum number of participants is not reached, either can be extended if there is a waiting list up to 90 players in total. This applies to both national and international players.

Invitations will be awarded at the last possible moment after registration and waiting lists close.

Within the 90 accepted players, there may be an unlimited number of participants of foreign nationality not federated by the RFEG. All must send a handicap certificate at the time of registration.

In the case of players of Spanish nationality, the exact official handicap that will be taken into account to make the list of admitted players will be the one that appears in the RFEG database at 10:00 a.m. of the day following the closing of registration.

Among the registered players who are not admitted among the 60 gentlemen and 30 ladies with the lowest handicap, a waiting list will be established, in order of exact handicap, to cover one by one, the possible absences communicated within the expected period. The criterion to be followed to establish the order of priority between the players on the waiting list with the exact same handicap will be that of the earliest registration date.
